OBJECTIVE

Senior Computer Engineering student with 1 year experience in full stack development , seeking full-time web development roles.

EDUCATION

Bachelors of Computer Engineering, Sakarya University Sep 2019 - July 2023
Relevant Coursework: Data Structures and Algorithms, Deep Learning, Software Engineering.

SKILLS

Languages Javascript, ReactJS, NextJS, NodeJS, Python, Flask C#, ASP.NET, C++/C, HTML, CSS.
Skills Full stack web development, Data structures, Algorithms, Machine learning

EXPERIENCE

Software Engineer May 2023 - Present
Primeware *Sakarya, Turkey*

- Collaborated with a team of 6 engineers on the development and maintenance of desktop and web-based industrial design software using **ASP.NET CORE** and **Next.js**.
- Involved in debugging complex bugs and fixing them.

Full Stack Developer August 2022 - September 2022
MMM Group *Munich, Germany*

- Maintained and developed a **MERN** stack application according to the given specifications.
- Implemented a synchronized mechanism between the database and the washer using OPC UA.
- Evaluated various solutions for implementing OPC UA API.

Full Stack Developer June 2022 - August 2022
Trapmine *Istanbul, Turkey*

- Implemented a pipeline system to get data from VirusTotal and insert into DynamoDB tables.
- Developed a real time full-stack application to display data from DynamoDB tables.

PROJECTS

Yakamoz - An Interpreted Programming Language [Github](#)
Developed a custom programming language with a user-friendly Turkish interface using Python. The project also involved a web interface made using Flask and ReactJS.

Adventure Nest: Full-stack Website with Deep Learning Object Detection Module [Github](#)
A full-stack property rental website created using ReactJS, ASP.NET, and Flask. The backend includes a deep learning module for object detection in a host's home.

EventShare [Github](#)
A fullstack social media MERN website which lets a user view events from other websites. Employs web scraping of events from various websites such as Facebook Events, Meetup and Eventbrite.

LANGUAGES

English , Turkish , Urdu
